NOSE FINISH IN HANDICAP

LEOCHARES SCORES OVER BRINGHURST BY THE NARROWEST OF MARGINS.

Well-Backed Horses Figure Largely in Results on Last Day but One of the Kentucky Racing Season—Big Crowd in Attendance.

Cincinnati, O., November 6.—John W. Schorr's good sprinter Leochares terminated his racing for this season with a splendid victory in today's six-furlong handicap at Latonia. He was conceding the others weight and succeeded in getting up in the final strides to beat Bringhurst in a strenuous stretch drive. There were many in the big throng of spectators who thought that Bringhurst should have been returned the winner, and his failure was in the main due to McEwen's floundering about in the saddle when he repeatedly looked around during the stretch racing, instead of keeping more diligently at work on the Camden sprinter. Even in defeat, Leochares' performance would have been a sterling one, for he was a distant trailer in the early stages, and was forced to run extremely wide on the last two turns to avoid interference. He finished like a flash and also exploded the theory that he could not carry over 120 pounds successfully. The time of the race, 1:11 1/4, was within one-fifth second of the track record held by Winning Witch. Betting activities on the race was confined chiefly to Leochares and Bringhurst, with the Schorr colt ruling favorite.

Tomorrow's close of the present racing season in Kentucky was responsible for a large attendance today. It was easily the best week day crowd of the meeting. The betting was again of large volume, and most of the winners and the contenders were extensively supported.

Close contests were again the rule, except in the opening, in which T. C. McDowell's grand filly, Waterblossom, made a show of her opposition and won with consummate ease under restraint. The English colt, Royal II., was regarded highly, but seemingly could never get to going fully, and was far back at the finish, One Step and Hoos Hoo beating him for the minor portions of the purse. Waterblossom was the outstanding favorite of the afternoon.

The public followed up its initial success by selecting The Reach as the one likely to win the purse in the second and this he did, but it was unfortunate that much the best, for Neylon took him in several times in the first three furlongs and piloted him wide in the stretch. Sunset was an easy winner in the third, with Christie beating the others. Billy Joe, the favorite, finished far back.

Dr. Tate, which Mose Goldblatt recently purchased from Amos Turney, died this morning.

There was a big delegation here today from Louisville. They will remain over to witness the sport tomorrow. The delegation included Gen. W. B. Haldeman, the well-known publisher and member of the Kentucky State Racing Commission. Sen. J. N. Camden, who was re-elected to the United States Senate Tuesday, will be a visitor tomorrow. He probably will preside at tomorrow's meeting of the Kentucky State Racing Commission, of which he is the chairman.

Garrett D. Wilson, secretary of the Kentucky Association, was among the visitors this afternoon. Edward Trotter and G. C. Baker will ship their horses tomorrow to Havre de Grace for the racing there.

The racers owned by Amos Turney were shipped to Pimlico this morning, including Waterblossom.

Entries for the Charleston Stakes, which close tomorrow, were given considerable attention by owners this afternoon, and Manager Auerbach reported receiving a big list. He has deferred his trip to Pimlico until Sunday and will confer with Secretary Nathanson on his arrival here tomorrow.

W. G. Yanke will depart tomorrow for California, where he will join his family. He will reach Juarez in time for the opening there.

John W. Schorr's string of racers, except Goldcrest Girl and Aunt Josie, will be shipped to Louisville next Monday to go into winter quarters.

W. W. Darden purchased today the mare Flora Fina, which he will ship to Nashville, Tenn., for mating with Ivan the Terrible. Trifler, Little Father and Dorchet will also be shipped to Nashville and later transferred to New Orleans for the racing there.

P. T. Chin purchased The Reach after his victory from Mrs. A. H. Brandt at private terms.

The Jefferson Livingston band, that will be retired for the winter, consisting of Bob Hensley, Sosius, Royal II., Bonne Chance, White Crown and two others, will be transferred by trainer Brandt to Louisville next Sunday to join Longfellow. First Fiddler and the twenty yearlings that P. T. Chin acquired in England for Mr. Livingston's account. In addition to this band, trainer Brandt will also take along seven of the horses running in J. Kelly's interest, including Short Grass, which P. T. Chin will turn over to him to be looked after during the winter. Iron Mask and Ed Howard will be taken up soon and given light exercise during the winter with a view to racing them again next season. The rest of the Livingston racers will be shipped to Juarez, where P. T. Chin will have charge of them.

Jockey Neylon, according to present plans, will not ride during the winter and will remain at his home in Portland, Ore., until spring, when he will report to P. T. Chin at Louisville.

The following horses were sold by auction before the racing at Latonia today: Bingo, W. F. Knebel, \$650; Long Reach, C. P. Elkins, \$300; L. E. Farrington, \$55; Colfax, B. E. Chapman, \$100; Transitory, T. A. M. Addison, \$65; Sir Major, C. R. Anderson, \$65; Dahomey Boy, M. Jacobson, \$60.

H. D. Brown, manager of the new track now being built at Marianao, a suburb of Havana, Cuba, arrived last night at Cincinnati to consult with horsemen racing in Kentucky relative to his meeting. From there he will go to Toronto and afterwards to Baltimore.

The shipment of horses from Kentucky to Juarez will be in part made up of the following: Juarez, 22 horses; F. D. Weir, 10; P. J. Miles, 6; W. G. Yanke, 16; D. Weir, 4; Frank Farmer, 4; W. H. GLOAMING WINS PURSE FOR R. T. WILSON.

Montpelier Stable's Entry Runs First and Third in Principal Race of Day at Pimlico.

Baltimore, Md., November 6.—The Montpelier stable furnished the winner and also the third horse in the principal race of the afternoon at Pimlico. Gloaming, by Star Shoot—Autumn Leaves, won by a short neck from Eagle, formerly in the same stable, with Sarsenet, the other Montpelier entry third, and Protector a head away, fourth. It was the best finish of the meeting. Protector was a strong choice and gave encouragement to his supporters by taking an early lead and retaining it to the furlong post, where Gloaming, Sarsenet and Eagle closed with a rush. They pinned Protector on the rail, but he was tiring at the time and had no excuses. Sarsenet suffered more from the closing in than the others and probably would have won with a clear course.

Old Besom finally won a purse for P. S. P. Randolph, but he just did get home a nose in advance of Delaney. Besom was the pacemaker all the way, but tired rapidly at the end. After many attempts Capt. P. M. Walker's Afterglow, which has been just well enough in his races to encourage his backers in the new trials, won the fifth, a mile and seventy yards selling handicap. Undercover was the leader until the last fifty yards, where Afterglow, after working his way up through the field, came along on the outside and scored by a neck, going away.

At the conclusion of the Pimlico meeting, a number of horsemen will ship from here to Charleston. The shipment will be made up of the horses of the following: O. E. Pons, a division of James Arthur's stable, Dominick Kenny, G. E. Ridge, Edward McBride, J. O. Burtchell, W. E. Stokes, P. Stire and F. Musante.

Besom changed hands after his victory in the fourth race. He was entered to be sold for \$400 and C. E. Freeman secured him on his bid of \$900. Besom is intended for racing at Juarez.

J. C. Dallam, treasurer of the Maryland State Fair, was among the visitors at Pimlico this afternoon. Andrew Miller also came over from New York for the day, and Thomas Love, who is interested in several jumpers in the M. Daly stable, came down from Montreal to witness the running of the jumper, Garter.

P. S. P. Randolph has purchased the jumper, Foxcraft, from J. Murphy. Mr. Randolph will have several jumpers in his stable next year.

MCDOWELL YEARLINGS GO INTO TRAINING.

Lexington, Ky., November 6.—Ten good-looking thoroughbred yearlings, owned by T. C. McDowell, were transferred from Ashland Farm to the Kentucky Association track this morning to be trained. Among them are two slashing colts by Voter, one out of Ecstasy, and the other out of Lady Anne. The Ogdens—King's Daughter filly, the first foal of that good mare, is a racy-looking individual. The Warboy—Fancywood colt is a good one and the Marathon—Monarda colt is promising, as is the Plaudress—Countess Irma filly.

G. W. J. Bissell is here from Latonia to take up his yearlings, which with four older horses, are to be shipped in two weeks to Charleston.

ARMY HORSES QUARTERED AT DORVAL

Montreal, Que., November 6.—The plant of the Dorval Jockey Club at Dorval is a scene of bustle and activity, and a chance visitor might have been excused for believing that preparations were being made for another race meeting. But there is no race meeting contemplated. What is actually taking place is the active preparation for racing and training at the track a shipment of fifteen hundred horses from Saskatchewan, the gift of that province to the imperial government. Mindful of the offer made by President J. T. R. Laundreanu and the directors of the Dorval Jockey Club to place the Dorval plant at the disposal of the military authorities, the officers in charge of the remount department took advantage of the offer, with the result that the plant, which had been closed down for winter, was opened up on Saturday and stalls bedded down and accommodation made for the stabling of fifteen hundred horses and the small army of attendants accompanying them.

GENERAL NEWS NOTES OF THE DAY.

The brunt of the great battle in Belgium and northern France has moved further south across the terribly devastated plain to the Seine. In Armentieres nothing human can live. Little is left but burning and battered. The allies have been in and out of the city and their shells have left the town alight in the center. It is reported that the Kaiser with a staff of strategists is directing the whirwind attack from Tournai and concentrating everything on the great movement the object of which is Boulogne and the line of which is south of Hazebrouck and St. Omer, where there is a more or less clear road to the coast. Two immense German armies are reported to have returned to the attack on the French sea coast. One force of 350,000 is endeavoring to drive through the Dixmude line to Calais. Another is battling the allies about Arras in an endeavor to reach Abbeville and Boulogne. German submarines are being concentrated at Bruges for a raid on the English coast. Torpedo boats are being rushed in sections to Belgium on trains. The Germans have fortified the Belgian coast between Nieuport and Zeebrugge. The Germans are now concentrating their heavy artillery north of Arras, hoping that the big guns will accomplish what the massed attacks of infantry have thus far been unable to effect. The Germans have issued a new proclamation prohibiting an approach on the waterways at Bruges. Trespassers are warned that they may be shot. Heavy guns have been mounted on the sand dunes along the coast from the north of Ostend to the Dutch frontier. Trenches also have been dug in the neighborhood of Heyst. The inhabitants of Ostend have been ordered to take to their cellars with five days' provisions. A dispatch from Antwerp says forty heavy guns arrived at Aixa-la-Chapelle yesterday from France destined for Arras. Sixty armored automobiles with mitrailleuses have left Aixa-la-Chapelle for Ostend, according to the same advices. France has followed the lead of Great Britain and declared war on Turkey. Fighting between the Turks and Russians is progressing, and as was the case at the opening of the war between Russia and Austria, each side claims the advantage. It is believed that the clashes are merely "fevers" preparatory to sanguinary fighting which is bound to materialize within a few days. The Anglo-French fleet continues to bombard the Dardanelles forts, but the Turks say the warships have inflicted no damage. British reports, however, insist that Forts Kumkaleh and Suddubahr have been damaged. A dispatch from Petrograd says: "The Russo-Turkish front extends over 100 miles. The first important fighting is expected to take place near Erzerum, Turkish Armenia. It is feared here that there will be atrocities. Emperor Nicholas has arrived at army headquarters at the front in Russian Poland. Snow now covers the ground all along the Prussian-Russian frontier. Russia claims that victory has been won all along the line—on the Vistula and in East Prussia, and that the German army is in retreat. The British cruiser Glasgow and the transport Otranto are now known definitely to have escaped the German guns in the narrow battle of the Chilean coast last Sunday. Intercepted wireless messages from the Glasgow stated that the Otranto was under her convoy. The messages were calling the British cruiser Good Hope, but the latter did not reply. There is little hope that Rear Admiral Sir Christopher Cradock, his flagship, the Good Hope, and the 900 men of her crew survived the engagement. A telegram from Berlin says the Kaiser, in a cabinet order, has promised a reward of 750 marks (about \$188) for each machine gun captured. It is officially announced that the Japanese and British forces are closing in for the final assault on the German stronghold of Tsing-tao. A dispatch from Odessa by way of Moscow, says twelve Turkish and German transports carrying coal have been sunk near Uzmaguldaik on the coast of Anatolia. The French official announcement says Thursday passed without a perceptible modification on the front. The fighting between Dixmude and the Lys continued without marked advance or retirement. A British steamer, it is asserted by the Turks, was sunk off Alvali, Asia Minor, after the crew and cargo had been put ashore. Turkish cruisers have bombarded the Russian fortified seaport of Batum, on the east shore of the Black sea. It is officially announced at Constantinople that one of the British warships bombarding the Turkish fort at the western entrance of the Dardanelles has been sunk. The British government gave out the following official statement: "The offensive force of the allies in Belgium has made progress since Dixmude and Dixschoette. The allies have reached the road joining Ytyschate and Lessing, where the German attacks were repulsed." The German government bureau gave out the following statement: "The German offensive northwest and southwest of Ypres in Belgium has made progress. The Germans have gained ground near La Bassie, and in the Argonne have taken an important position at Debois Brulee, southeast of St. Mihiel." Grand Duke Nicholas, commander in chief of the Russian forces in the field, has sent a telegram to Gen. Joffre, commander in chief of the French forces, saying the Russians have gained in East Prussia the greatest victory since the beginning of the war. According to information given out in Berlin, the Sheik-ul-Islam, chief ecclesiastical dignitary of Mohammedanism in Turkey, has issued a decree in Constantinople, saying that in the fighting with Russia, England and France, the duty of every Mussulman is to his faith. This decree has been spread throughout the Mohammedan world and announced to the pilgrims at Mecca. A report from Constantinople says that the ameer of Afghanistan has sent an army of 170,000 men, with 135 guns, to the Indian frontier.

Caranza officials claim twenty states out of the thirty-one states and territories in Mexico in the present conflict with the Villa factions which has resulted in actual conflict below Aguas Calientes. The result of the battle has not been learned, but it is known strong forces have met almost at the city where a week ago an attempt was made to adjust peacefully the factional disagreement.

Russia has informed the United States government that because of mines planted to protect Russian territory, the entrances to the gulfs of Finland and Riga have been closed to shipping, and that mines have been placed around the Aland islands and in the northern part of the Baltic sea.

Not only did the men and women voters of California bury statewide prohibition on Tuesday by a majority that may reach close to 200,000, but they adopted a referendum amendment prohibiting another vote on the question within a period of eight years.

A dispatch from Aguas Calientes says that ten thousand soldiers under General Villa yesterday repulsed and drove back an attacking force of Carranza troops twenty-five miles south of that place. The Carranza forces were commanded by General Leon.

Gen. Villa has notified the national convention at Aguas Calientes of his willingness to resign command of his troops and retire to private life, if that is necessary to bring about the elimination of Gen. Carranza.

Maj. Gen. Robert G. Kekewich, retired, who defended Kimberley for 126 days against the Boer armies, was found dead in his bedroom in London from a self-inflicted gunshot wound in the head.
